## **EXTRA - VIDOFLEX**

### **Vidoflex Thermal Insulation with External Protection**

**Advantages:**

- The best insulation from Anavid (Vidoflex).
- The product is supplied in 2 meter lengths.
- The external pvc protection provides a high level of waterproofing in addition to excellent mechanical and UV protection for the insulation.
- No need to use further protection such as paint or pvc.
- Saves time and money in the installation process.
- Specifically designed for air conditioning systems due to the high quality Vidoflex thermal insulation which prevents condensation on the insulated tube.
- The insulation is in accordance with BS 476 PART 6 CLASS 0 and M1.

**Physical Properties of the insulation:**

Temperature range:	-40°C ÷ +105°C
Thermal conductivity:	0.033 W/m°C @ 0°C
Water vapour diffusion:	$\mu \geq 7000$
Ozone resistance:	No cracks
Thermal stability:	Excellent
CFC content:	CFC Free
Resistance to oil and grease:	Excellent
U.V. resistance:	No cracks
